 - B. Assessment and Accreditation Coordinator
 1. Unit Assessment Committee
 2. CAEP Areas for Improvement

In the October 2018 Accreditation Action Report, CAEP cited the College for a lack of professional development of clinical educators and for a lack of continuous improvement based upon assessment data.

Standard 2: Clinical Partnerships and Practice

Area for improvement: There was not sufficient evidence that all clinical educators have received sufficient professional development. (Component 2.2)

Rationale: The EPP lacks training/professional development for clinical educators (both EPP and school-based) so as to assure consistency in the use of assessment instruments.

Standard 5: Provider Quality Assurance and Continuous Improvement

Area for improvement: The EPP's quality assurance system does not sufficiently monitor operational effectiveness across all programs. (Component 5.1)

Rationale: The EPP does not have a system in place that supports the ability to monitor operational effectiveness across all programs. The aggregation and disaggregation of data is not currently systemic, and easily shared across the EPP.

- C. Professional Development Institute (Dean Henderson)
