Sign Up for a FREE Virtual Consultation with IHEC

Update: Due to COVID-19, consultations will be virtual until further notice

The purpose of an IHEC consultation visit is for campuses to enhance or strengthen their current programming, provide data to justify need for future programming, and to ensure compliance with state and federal regulations. IHEC staff members are available to guide colleges and universities in assessment, planning, and evaluation of campus AODV prevention efforts through technical assistance and use of assessment instruments developed for this project. Through consultation visits IHEC expects to fuel universities to make changes for the better

After the consultation has been completed, IHEC staff members will provide the campus representative with a comprehensive report that will guide campuses toward progressive AODV prevention modifications. Consultation visits typically take a day, and can be coordinated with an array of faculty members. You can also visit

<https://www.eiu.edu/ihec/consultationvisits.php> for additional information.

Continuing Education Units (CEU's)

IHEC offers free CEU's at all webinars and trainings!

For more information about what CEU's we will be offering please contact us.
