

30 Days with Office 365 for Educators

Thursday, January 15, 2015 11:57 AM

The following links are to a series of blog posts that I posted during the Fall 2014 semester as our faculty/staff were provided access to Office 365. Some of this information is specific to EIU, however, it also provides a general overview of some of the many capabilities that Office 365 offers faculty, staff, and students. These post also explore many new opportunities for teaching and learning in the age of the Cloud. Dr. Grissom
